

# DESIGNER... PACKAGING

J. Charles believes that quality packaging is important to an aesthetically pleasing presentation. That is why you'll find all of our glass and crystal boxed in a manner that is commensurate to our quality products.

To find out how your selection will be packed, refer to the packaging reference below the catalog pricing for that item. Please note that items listed as bulk packed are not boxed individually and are packed in bulk cartons with cells separating each item. The following are brief descriptions of our various types of packaging.

**Style A** This patented designer gift box has a self-locking system as just one of its many attributes. The two-toned exterior boasts blue and silver laminates, while the bottom interior is lined in black velour for maximum impact of your logo. Guaranteed to enhance the perceived value of your selection, a finer gift box simply does not exist.

**Style B** This gift box will enhance your gift in a way that standard brown or off-white corrugate cannot approach. The bleached white (not off-white) interior brightens its contents while insuring that your gift arrives safely.

**Style C** This gift box will enhance your award in a way that standard brown or off-white corrugate cannot approach. Each award is wrapped in blue tissue then over-wrapped with a decorative honey-comb wrap that insures the safe arrival of your award. The bleach white (not off-white) interior brightens the contents while coordinating with the overall designer look. Note that some of our awards have platform inserts versus the tissue and honeycomb wrap shown.

**Style D** This two-toned gift box features blue and silver laminates highlighted by a square silver button on top. The telescoping lid covers all but the very bottom, while exposing a silver band for a designer look and snug fit. The interior is also lined in blue and silver and is equally luxurious. Please note that some items may require over-wrapping in our decorative honeycomb wrap or tissue. Aesthetically pleasing and extremely sturdy, these boxes will surely be reused by their recipients. Positive comments guaranteed!
